This phrasebook, English-Spanish is awesome. The book contained simple yet very common phrases that are easy to be learned. I observed that there are many similarities between the English and Spanish words and pronunciations. Now I understand that it is not hard to learn this language. This book introduced the basics that are easy to understand and to use for conversations.

We really love exploring countries and places and our next stop will be on Spain. Trip will be so much more fun and meaningful if we know how to communicate with local people. And I found this book very useful, the phrases from this book are very helpful to travellers like us where we can learn some very easy to remember sentences and words.

Spanish has always been a language i wanted to learn, although i'm not too good at it.let's just say i'm a newbie when it comes to speaking spanish hence the reason i bought this book. i really just wanted to get myself familiar with the common phrases of the language and this book was perfect for that. if you're in the same situation like me where you want to learn spanish but have 0 knowledge on how to go about doing so then this book will be a great fit for you.

A complete guide to learning Spanish. In my college days, Spanish was a part of the curriculum, it was one of my least favourite subject. I thought it was so boring that I skip class most of the time. Thanks to this book now it is much easier to understand and to learn to speak proper Spanish.  
Good job

I found book useful on recent trip to Mexico. The book contains separate sections that apply to a variety of subjects and activities that assist in being able to focus on what you are trying to express to someone who may speak little if any English. The book also assists in helping you express the Spanish correctly
