I was very pleased to see how the illustrator added so much to the text in this book, by adding his own humor of view to the story. This is Great!Very deep writing. Taking into consideration real problems in our lives. Kid's lives as well as Adults lives. This story is talking about the courage we need to get from our deep awareness in order to fulfill our wishes.

Don't you just love tomatoes? Those big, red, juicy tomatoes we get in the summer, that taste of summer and freshness. One day, the crow who lives in a tree, found the biggest tomato he had ever seen. It was red and ripe and lush. But, the crow had too many fears to leave his perch in the tree to go take a bite. Soon a rabbit hopped along, saw the tomato and thought he might have a nice snack. The crow told the rabbit to be careful that a fox might come. What do you think the rabbit did? Anat Umamsky, the author has written a delightful story about fears and how we face them, and if we decide to live with fear, what can happen. Her writing is fresh and lively, and my granddaughter was enchanted with the story. We talked for awhile about her fears, and how she can face them. The illustrator, Yvegeni Lagutin, has given us colorful, vivid pictures of the creatures and tomatoes who inhabit this book. The illustrations bring the story to life. The lessons learned from this short story will be important to remember for children for years to come. The adults who read the stories can help their children visit their fears and discuss how to overcome them. Heartily Recommended.

A crow sees a beautiful tomato and wants to eat it, but is afraid of the wolf. A rabbit comes along and sees the tomato bigger than himself. He too wants to eat it. The crow warns of the wolf. He

gives the rabbit advice about how to hide from the wolf while eating the tomato. The rabbit tries to convince the crow to join him. The crow is too afraid. Soon the tomato is gone and the crow realizes his fear, realistic or not kept him from attempting something he really wanted.

I guess a double negative makes a POSITIVE! Saying "Don't think you can't" is saying, "THINK YOU CAN!" That's the lesson for both kids and grownups. And it's brought out both by well-written text and imaginative illustrations. That first picture, at location 28, grabs me--it's so modern and Dr. Seuss. The story of the crow, rabbit and tomato is funny and so human. But there's a wolf in the way! There's a CAN'T in the way. There's FEAR in the way. This is a positive story that children will love. But a few might ask, as I did: WHAT IF THERE WAS A WOLF? After all, in life sometimes "a wolf" does appear. I think this story would've been more realistic if the wolf appeared and the rabbit had to handle THAT situation. If children ask that question, ask them in turn, "Well, what would you do if you were the rabbit, or the crow?" You will likely get a great discussion and see imaginations roll!

I downloaded this book to my kindle app on my cellphone and read it to my grandson. He loved it and rated the book a 5! He said the rabbit was smart and the crow was afraid. That's why the crow went hungry because he was afraid of a wolf that never came. He said sometimes he is scared, but feels better when he tries. That's the lesson in the book.

the story is not only good for kids, but also for adults. We always worry too much about something in the future .

This is a cute book told in the form of a fable. Targeted for children in the four to eight age range, it is probably more appropriate for those at the upper end of that range. The story mainly revolves around two animals, the crow and the rabbit. This crow sees a beautiful, lush, red, ripe tomato hanging from a tree and is dying to eat it, but the crow is hesitant because he fears the wolf might be lurking somewhere nearby. Along comes a rabbit who spies the same tomato; he does not hesitate! When he cannot budge it, the rabbit tries to pull it down with a rope. Even though he fails, the rabbit is undaunted. He scales the tree with the intention of eating it right there, but the crow flies by and warns him that the wolf might be coming. The crow convinces the rabbit to hide the tomato under a colorful blanket to disguise it.. Will the rabbit succeed in eating the tomato? Does the wolf show up confirming the crow's fears? What is the important lesson that children will learn from this

tale? At the end of the book, the author offers a free booklet on facing your fears as well as a free audio book as a bonus for the purchaser.

Wonderful and entertaining book for children and even adults! For me, I found that this book is great to read to a child, yet personally, as an adult, I found that this book has truly helped me. And I recommend it to you for the following reasons: 1) This is a beautifully illustrated (in color) book with humorous text, yet help a child or adult get rid of fears and go forward. 2) This book is very superbly written that any age will benefit from reading this book. 3) The story centers on the brave and very smart rabbit (who goes for what he wants) and the very fearful crow, who could not let go of his fears to get what he wanted. So this will appeal to any child or adult with this story, the hero is the rabbit! Very highly recommend this superb book to all!
