This is a great addition to any harp musician's library. My harp teacher recommended getting this now, just to make sure I could get my hands on one before Christmas time when it sells out. There are easier and advanced arrangements for every carol, allowing this to be useful for anyone from beginner to advanced. It can also be used as a duet. I started lessons in March, and can already sight read most of the easier carols. (I am very proficient in piano and sightreading, and this is my third instrument.)

Love it! Love the different levels I can start with and then, maybe, advance to. I'm totally a novice so love some of the simple ones. Hoping to "play" with a friend's group before Christmas.

This book covers most of the most popular Christmas carols. Spiral binding keeps book flat and open for easy viewing.

Received quickly my son loves that there are two versions to each song an easy version and a

more advanced version

This is the third copy of this book that I have bought to have on hand when friends come to my house to play. You could use it for C instruments as well as harps. Believe it or not, some musicians do not have money to pay for books so I just enjoy providing the material. This book really is good for beginners as well as intermediate and the two versions compliment each other.

Nicely arranged and good selection of carols. Two levels of each carol, one more elementary, one more intermediate. Wonderful way to play alone or combine with another harpist for duets.

Excellent product for both beginner and intermediate harper and shipping was very quick.
