Customer Reviews

The trombone part did not come with it, just the piano score. I'm not sure why it's excluded.

Not sure where Henry Smith got his ability to arrange music, maybe a cracker jack box. Last time I looked, and I've been playing Trombone for over thirty years, a Trombone solo meant that you have the melody. Beware, Sleepers Wake melody is written for the piano, not for Trombone. If you look for the melody in the Trombone book portion of this collection, you will be greatly disappointed. It's not there. If you want to take the extra time to transpose it so that you can play it on Trombone, be aware that you will be echoed by the piano, supposedly the "accompaniment." Don't waste your time

and money. Shop for this music by an arranger that actually knows what he is doing.

After playing trombone for 5 years, when I obtained this book, I had some difficulty sight reading it, but after a few claps and 1 E and A 2 E's, I was fine. If you have a good pianist around, and you can stand a little counting, I would definitely recommend this book.
