# Jane Austen Collection

## Synopsis

Jane Austen's novels *Pride and Prejudice*, *Sense and Sensibility* and *Northanger Abbey* remain hugely popular and are widely acknowledged as classics. Here Hodder Headline Audiobooks' acclaimed abridged readings of them are collected in one specially-priced pack.

## Book Information

Audio CD: 9 pages

Publisher: Hodder & Stoughton Ltd; 2nd edition (December 14, 2006)

Language: English

ISBN-10: 1844561860

ISBN-13: 978-1844561865

Product Dimensions: 5 x 2.9 x 5.7 inches

Shipping Weight: 1.2 pounds

Average Customer Review: 3.4 out of 5 stars [See all reviews](#) (13 customer reviews)

Best Sellers Rank: #4,183,592 in Books (See Top 100 in Books) #59 in [Books > Books on CD >](#)

## Customer Reviews

These recordings are abridged. I have a reading of *Emma* on 11 CDs. This collection does it in 2. This is a drawback, and it is not evident from the description. The box only mentions it on the back at the lower left although it would be evident from the CD count, I suppose. On the plus side the set includes an unabridged reading of *The Watsons*, and a CD of readings of Jane Austen's letters, both of which I have not seen elsewhere available in audio. I was looking for *Sense and Sensibility* on CD. It is here, abridged, in a 2 CD set, also. I'm torn between opening the box, i.e. accepting the item, for the *Watsons* and *Letters*, and to hold my *S&S* desires until I can find a full version; and sending it back. Watch for a further review if I open the box. Ok, I did open it and listened to the *Watsons* (unabridged), *Sense & Sensibility* (abridged) and *Pride and Prejudice* (abridged). Here's the deal: You don't read Jane Austen for the plot. You read it because of Jane Austen's writing. You listen to it for the same reason. This means there is nothing at all to recommend an abridged version. Here's the problem in a nutshell. At one point in *Pride and Prejudice*, Elizabeth Bennet regrets all of the saucy speeches she ever made to Mr. Darcy. We regret them too, but for a different reason. She wishes Mr. Darcy had never heard them. Had he been listening to the abridged version, he never would have heard them because they were all cut out. Parts of the

abridgement make no sense at all. When Ms. Bingley says Elizabeth is one of those women who curry favor with men by running down members of her own sex in the abridged version, this makes no sense whatever because we have not heard the conversation that led it to it in the novel. I do not recommend buying this set at all.

This is a Kindle-specific review by AGB. Value for money: excellent bargain set of the six great Austen novels, plus the juvenile "Lady Susan". There are some Kindle-specific faults that readers will want to beware (though fewer than in other competing Complete Sets). Presentation and Format: The pages display cleanly, with the text set fully justified (as Kindle definitely prefers). Two quibbles. First, the Chapter Lists referred to below are set to the left margin and can be difficult to select with the Kindle trackwheel and silver bar way over to the right (temporarily increasing the font size to pick a chapter is a work-around). Second, emphasis within the text that would usually be italicized has been poorly done: "Mr. Bennet, how can you abuse your own children.....". Ugh! Cover etc.: there's a simple cover for the whole set, but no covers for the individual novels. Opening Linked Table of Contents: there is a proper opening linked ToC and - most usefully - each novel commences with a list of links to the individual chapters. (Note: the "Linked ToC" enables you skip to predetermined points in the file - individual books, chapter openings etc. Without a good one, a long or very technical work can be tiresome to navigate on the Kindle.) Metadata ("Metadata" refers to some hidden coding that publishers insert into the text file to enable Kindle to list and display correctly the essentials of the book - Author, Title etc. Kindle owners are able to correct indexing errors - which are very, very common - via a 3rd party software program called "Mobi2Mobi", but is both annoying and time-consuming to have to do so.
