Surrounded By Idiots: Fighting Liberal Lunacy In America

Synopsis

In *Surrounded by Idiots*, Mike Gallagher, one of the top radio talk show hosts in America, takes us to the front lines of the unprecedented cultural and political war confronting all decent Americans. The 2004 election was a watershed moment in our nation's history, and while it was shocking to the left to see so many red states on the electoral map, to conservatives it was just affirmation of what they'd known all along; conservatives are the mainstream, and liberals are the fringe. It is not a time to rest or take things for granted, Mike Gallagher argues. Not at all. "Maintaining America's role as the greatest nation in the world means we must stay the course," he writes, adding, "Liberal idiocy surrounds us all. It threatens to destroy the values and lifestyles that millions of us cherish." The Left has targeted every value and standard, principle and idea, concept of God, family, honor, duty, country, and decency that we hold dear. As the nation battles for its very soul in this post 9/11 world, we have Mike Gallagher to help fight against the agenda-driven liberal lunatics. *Surrounded by Idiots* is an important, not to mention entertaining, look at where America is today and the possibility that the future of America will only get brighter.

Customer Reviews

As a conservative it never ceases to amaze me that nationally syndicated talk show hosts feel compelled to write books. Obviously it is a testament to their inability to get their point across within fifteen broadcast hours each week. Gallagher's opus is no exception. From Sean Hannity's sycophantic forward with its grammatical faux pas to the closing self-deprecating remarks in the final chapter it is a mediocre read at best and fails to offer any convincing solutions toward "fighting

liberal lunacy in America". This book is much like his show: considerable drivel about how things should be in his opinion and how those who don't share his philosophy are 'idiots'. According to Wikipedia.org an idiot is defined as "... a person with a very severe mental retardation or a very low IQ level..." Mike's opponents on the Left are not idiots. Idiots, by the above definition, would be incapable of holding public office or maintaining successful careers in entertainment or academia.. The root cause of their lunacy is driven more by ingratitude to this great nation more than anything. Gallagher fails to grasp this simple fact. He writes: "The thrust of the book that you now hold in your hands is political". Gallagher himself has incorrectly assessed his own writing. It is anything but political. Bashing politicians, entertainers, and academicians who are left of center does not provide for interesting reading, is tantamount to childish name-calling, and is hardly a persuasive political strategy. Rather than harp upon the ills of society, comparing them with the "back when I was a kid" mantra, Gallagher would have been better served to focus on the political issues that have aided in the political and cultural decline in which we as a nation find ourselves.
