Customer Reviews

This book is only compiled with information that is found on the Internet for free. As a director this book does not help in the areas described or listed. This is just a contact book for bands and is only usable for high schools in the USA. if you are not a high school director (band) and or cannot use the Internet Do not buy this book or get this book used or as low cost as you can.

The book was fine, for what it was - basically a directory of contacts and services. We we looking for a book that was actually about running a marching band.

COOL BEANS!!!

This book was awesome. It really does work. My band was very bad because we had so many rookies this year, but with the instruction of this book we won our Regional class. Thank you so much to the authors. Next year we will be going to the top as Grand National Champs!
