Customer Reviews

Both stories were so so. I understand the concept of writing 18-20 pages and calling it a short book but people usually want more substance, more facts, etc and neither of these stories give the reader that. Here is the person, this is how they committed the crime, this is their victims and this is how the system dealt with them. Done deal.

The writing style was a bit strange. He wrote in a way that made it seem almost like it hadn't happened yet. Like he was fortelling something that " would " happen, not something that " had "

happened.

The number of grammatical and spelling errors makes this book difficult to read. I don't know how this book made it past an editor! I got 3 pages in and had to stop because of the glaring errors.
