## Customer Reviews

I really despise this book. I feel like the author has an incredibly elitist attitude and the book was monotonous. The accompanying DVD was useless product promotion. In addition it all feels a bit outdated to me (the references to technology certainly are of course). There are better books out there now on this topic, IMO.

Book did not come with the dvd. I had to mail it back.

Great little book with great insight!

Good info

Excellent book. Indispensable reading and reflection.
